Newfren Brake Pads

new release

Australian Gokart Spares have released a new range of Kart Brake Pads into Australia manufactured by one of the largest brake material & brake pad manufacturer in Europe. These pads made from the highest grade of brake friction material . Due to the high demand of quality brake pads used in karting in Europe the Newfren name is at the top of the list when kart brake pads are required.

ARROW/DENT BRAKE PADS

Having problems with hard brake pads that will not stop , do not give you the braking you require to brake later for the winning edge . These new pads have been extensively tested and give the driver much more feel and enables him or her to modulate their braking to obtain maximum braking.

Newfren is one the largest motor cycle brake pads manufacture in Europe and have the technology to produce the a superior kart pad. Newfren was been making pads for the well known European kart manufactures for many years and in conjunction with Australian Gokart Spares have produced a pad that is a medium wear and has a medium/soft feel.

BRAKE MASTER CYLINDER

DENT /DPE

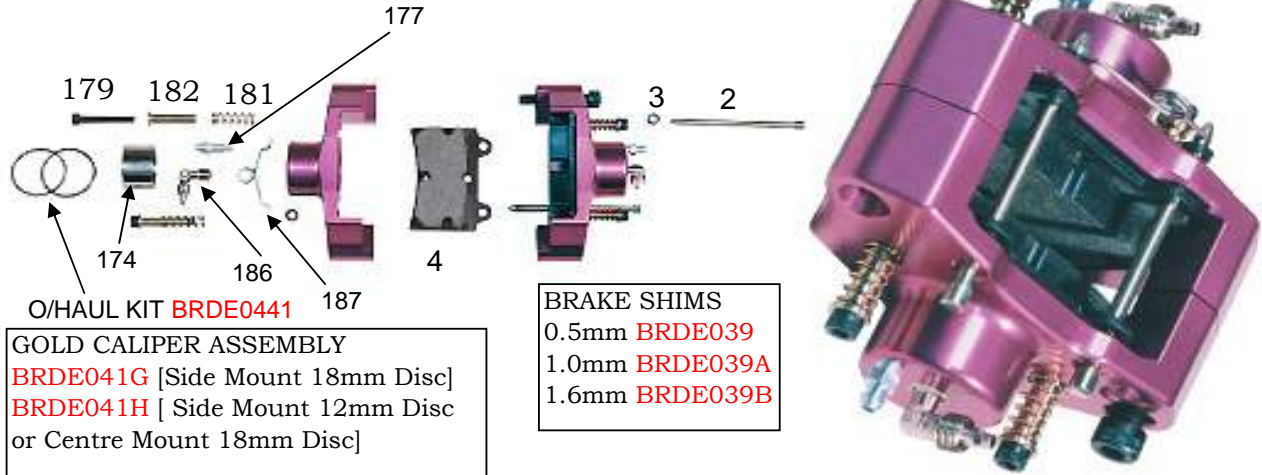

BRAKE MASTER CYLINDER DENT/DPE

FULL COMPENSATING TYPE SYSTEM

**WITH BUILT IN RESOVOIR TO MAINTAIN FLUID IN THE
SYSTEM AT ALL TIMES**

CAN BE USED WITH ANY CALIPER WHICH REQUIRES A .875" DIA CYL.

KP BRAKE SYSTEMS

Complete KP Hydraulic brake system

These brake systems were fitted on the Arrow/Demon karts up to the early 90's. The brake system shown in the picture is the latest version which is the same as the early units except instead of using spring clips to hold the pads in its use's retaining bolts.

The mounting bolts & spacing both for the master cylinder & caliper are the same from the early to the latest versions.

DPE BRAKE DISCS & CARRIERS

Is there no stopping DPE's innovation
 As well as manufacturing a large range of brake discs and hubs to suit most karts and applications, they have recently released their radial vented 'RADICALLY COOL' brake disc. Its unique design and construction ensures you'll never have to worry about brake fade again - yet in weights less than 980 grams. Match it to their GOLD BILLET Disc Hubs and you'll stop the opposition in their tracks every time.
